

## Fixed UAV Jammer

The HWUDS-1 system delivers our tried and tested drone jamming capability in a hardened IP67 case for permanent installation onto a building. Like all omni-directional jammers the HWUDS-1 could cause some interference to other devices, we have addressed this issue by attempting to use as low power as possible to defeat the drone.

### Product description

#### Description

The HWUDS-1 system delivers our tried and tested drone jamming capability in a hardened IP67 case for permanent installation onto a building. Like all omni-directional jammers the HWUDS-1 could cause some interference to other devices, we have addressed this issue by attempting to use as low power as possible to defeat the drone.

#### Features

- ▶ Multi-band emission, defeating most civilian UAV
- ▶ Defense Radius:  $\geq 1500M$
- ▶ Angle of Defense:  $360^\circ$
- ▶ Water-proof Design: IP67
- ▶ All-weathers working
- ▶ Defense automatically once installed
